SUMMARY

Full Stack Developer with 1 year of experience, including a 6-month intensive program at ITI. Shipped Awwab, a habit-tracking app with 200+ active users, and published react-pro-image, an open-source npm package improving image loading by up to 78% over the native image tag. Skilled in React, Next.js, and TypeScript. Led the frontend team in a full-stack graduation project built with Node.js, Express, and MongoDB. Comfortable in Agile environments and delivering clean, production-ready products.

EXPERIENCE

Frontend & Mobile Developer (Oct 2025 – Mar 2026)

Information Technology Institute (ITI) – Intensive Training Program (Scholarship) – Damietta

- **Nexora** ([Frontend Repo](#) | [Backend Repo](#)) – Graduation project; a full-stack e-learning platform with a React Native companion app. Delivered student course browsing and purchasing, live instructor chat via Socket.io, and one-on-one video sessions. Integrated AI-generated quizzes and lesson summaries to enhance learning outcomes. Built a teacher dashboard for assignment and quiz management, an admin panel for platform control and teacher verification, and automated Stripe revenue splitting between instructors and the platform. Built with React.js, React Native, Node.js, Express, MongoDB, Socket.io, TanStack, Stripe, Tailwind, Shadcn.
- **Store-Next** ([Repo](#)) – SSR e-commerce app with Google Auth and TanStack Query, optimized for performance and SEO. Built with Next.js, TanStack, Google Auth, Tailwind.
- **TrendMovies** ([Repo](#)) – Movie browsing app with Redux state management and full Arabic/English i18n support. Built with React.js, Redux, Tailwind, Shadcn, React-i18next.

Frontend Developer (Jan 2025 – May 2025)

Taswiaa

- Built and maintained a full-featured admin dashboard with complete CRUD functionality for product, category, and order management, streamlining inventory workflows and reducing manual data entry overhead across the platform.
- Designed and implemented responsive UI components for the mobile version of the platform, improving layout consistency and interaction quality across different screen sizes.
- Redesigned key dashboard flows and optimized overall UI structure across web and mobile, resulting in a 35% improvement in task completion time for internal operators and a measurably smoother user experience.

TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript (ES6+), TypeScript, React.js, Next.js, React Native, HTML, CSS, jQuery
- **State Management:** Redux Toolkit, TanStack Query (React Query)
- **Styling:** Tailwind CSS, CSS Modules, Bootstrap, Shadcn/UI, Headless UI, Material UI
- **Backend & APIs:** RESTful APIs, Node.js, MongoDB, Mongoose, Supabase, SSR/CSR
- **Tools & Practices:** Git, GitHub, Jest, Agile (Scrum & Kanban), SEO, Performance Optimization
- **Soft Skills:** Code review, cross-functional collaboration, technical presentations, problem-solving

PROJECTS

react-pro-image – Open-Source npm Package ([NPM](#)) (June 2026)

React.js, TypeScript, IntersectionObserver API

- Built an `OptimizedImage` component delivering up to 78% better loading performance than the native image tag, using `IntersectionObserver` for lazy loading, progressive image loading, and automatic format negotiation (AVIF, WebP, JPEG/PNG) based on browser support.
- Implemented a custom `useImageLoader` hook managing the full image lifecycle (`idle` -> `loading` -> `loaded/error`) with graceful error fallback and smooth placeholder-to-full crossfade transitions, eliminating broken image states.

Awwab – Habit Tracking App ([Live Demo](#)) (Feb 2026)

React.js, Supabase, Tailwind CSS, Shadcn/UI

- Built from scratch component design, routing, data modeling, and Supabase integration for authentication and data persistence growing to 60+ active users.
- Added a custom push notification system and a gamified streak mechanism to drive daily engagement and user retention.

TypeScript E-Commerce App (Apr 2025)

React.js, TypeScript, Tailwind CSS, Headless UI

- Architected a scalable component system with strict TypeScript typing and accessible Headless UI components (ARIA roles, keyboard navigation).

Full E-Commerce Application (Jul 2024)

React.js, Redux Toolkit, Bootstrap

- Implemented JWT-based auth with protected routes and Redux Toolkit for global cart and filter state.

COURSES & CERTIFICATIONS

- Intensive Training Program – Frontend & Cross-Platform Mobile Development, ITI (2026)
- Pro Frontend Engineer: ReactJS + TypeScript + Redux (Udemy)
- React.js – Build Full E-Commerce from Scratch with Redux (Udemy)
- Next.js & React – Build a Full Stack Application (Udemy)
- Git & GitHub (Al Madrasa)

EDUCATION

Benha University, B.Sc. in Agriculture, Biotechnology (Oct 2020 – Jun 2024)

GPA: 3.0/4.0

LANGUAGES

- Arabic (Native), English (Professional working proficiency)
